## A TWO-WEEK CERTIFICATE PROGRAM ON COMMUNICATION AND INTERVIEW SKILLS

### ABOUT THE COLLEGE

GIET School of Pharmacy was established in 2004 by Founder and Chairman Dr. K.V.V. Satyanarayana Raju, under Sri Koundinya Educational Society who is the pioneer in educational institutions of East Godavari District, Andhra Pradesh. The institute is affiliated to Andhra University, approved by AICTE and recognized by PCI, New Delhi. GIET School of Pharmacy is one of few institutions in Andhra Pradesh approved by the National Assessment and Accreditation Council (NAAC), Bangalore, which illustrates its quality in academe. Considering the global focus on clinical orientation of the pharmacy profession, GIET School of Pharmacy is one of the few institutions, which introduced the Doctor of Pharmacy (Pharm.D) course in 2008, for the first time in India, with the approval from PCI.

### Objective of the program

The main aim of communication skills and personality development are interrelated and dependent on each other. When we have good communication skills but we don't have the confidence to speak up and express ourselves, then it means that our personality needs more development. In such a circumstance, these communication skills might not help us to get to desired conclusions. Similarly, if we have many beneficial opinions and thoughts but do not have communication skills, we cannot clarify our perspective and mindset. So, we must comprehend that role of communication is vital in our personality development.

## GIET SCHOOL OF PHARMACY

### TIMINGS

09:30AM to 12:30 PM

### DATE

16.04.2018 - 30.04.2018

### REGISTRATION FREE

GIET School of Pharmacy, NH-16,  
Chaitanya Knowledge City  
Rajamahendravaram -533296

### Topics Covered:

- Effective speaker
- How to build good relationships
- A good listener
- How to enhance convincing power
- How to develop proper body language
- Develop confidence
- Public speaking skills

### Outcome of the program

By the end of the program students will understand the importance of communication skills. Communication helps individuals to express themselves in the most convincing way. Your thoughts, feelings and knowledge should be passed on in the most desirable manner and effective communication skills help you in the same. Communication skills and Personality development focuses on learning the important skill sets that helps you effectively and efficiently communicate your ideas and messages in simple ways and also on time. Understanding these soft skills related techniques for communication is valuable both for your personal situation (development) and at work place (for your professional career development).

### ABOUT THE COLLEGE:

GIET School of Pharmacy was established in 2004 by Founder and Chairman Dr. K.V.V. Satyanarayana Raju, under Sri Koundinya Educational Society who is the pioneer in educational institutions of East Godavari District, Andhra Pradesh. The institute is affiliated to Andhra University, approved by AICTE and recognized by PCI, New Delhi. GIET School of Pharmacy is one of few institutions in Andhra Pradesh approved by the National Assessment and Accreditation Council (NAAC), Bangalore, which illustrates its quality in academe. Considering the global focus on clinical orientation of the pharmacy profession, GIET School of Pharmacy is one of the few institutions, which introduced the Doctor of Pharmacy (Pharm.D) course in 2008, for the first time in India, with the approval from PCI.

### OBJECTIVE OF THE PROGRAM:

Clinical trials are considered to be the main tool in the studies of new tests, treatment and evaluates their effects on human health outcomes. It is also a type of clinical study in which participants are assigned into groups that receive one or more interactions, approaches to drug delivery which when done appropriately leads to the different phases of clinical trials and clinical trials are prospective biomedical or behavioural research studies on human participants. There are two main types of trails or studies - interventional and observational. Interventional trails aim to find out more about a particular intervention or treatment. Observational trails testing aims to find out what happens to people in different situations. Clinical trails testing new treatment are divided into different stages called Phase-1 & Phase-2.

### OUTCOME OF THE PROGRAM

The participants of this program will be able to understand the clinical trails is a critical phase in clinical research, which leads to generation of high quality, reliable and statistically sound data from clinical trials. Evaluating outcome that an investigator considers to be the most important among the many outcomes that are to be examined in the study. Clinically important outcome values allow physicians to provide patients with realistic expectations regarding their treatment that are based on their specific demographics. The main objective of this program is to make the participants aware of the clinical trials.

### TOPICS COVERED

- Development of clinical trails
- Introduction to different phases of clinical trails
- Pilot studies
- Feasibility studies
- Prevention of tails
- Screening trails
- Treatment trails
- Interventional trails
- Observational trails

## PROGRAM REPORT

**Program name** : A two -weeks certification programme on clinical trials.

**Duration** : 03.12.2018-17.12.2018

**Venue** : GIET School of Pharmacy

**Organised by** : Pharmacy college

**No. of Participants** : 11

### Objective of the program:

Clinical trials are considered to be the main tool in the studies of new tests and treatment and evaluates their effects on human health outcomes. It is also a type of clinical study in which participants are assigned into groups that receive one or more interactions, approaches to drug delivery which when done appropriately leads to the different phases of clinical trials and clinical trials are prospective biomedical or behavioural research studies on human participants. There are two main types of trails or studies – interventional and observational. Interventional trails aim to find out more about a particular intervention or treatment. Observational trails testing aims to find out what happens to people in different situations. Clinical trials testing new treatment are divided into different stages called phases. Phase-1 &Phase-2.

### Topics Covered

- Development of clinical trails
- Introduction to different phases of clinical trails
- Plot studies
- Feasibility studies
- Prevention of tails
- Screening trails
- Treatment trails
- Interventional trails
- Observational trails

## Outcome of the program

The participants of this program will be able to understand the clinical trials is a critical phase in clinical research, which leads to generation of high quality, reliable and statistically sound data from clinical trials. Evaluating outcome that an investigator considers to be the most important among the many outcomes that are to be examined in the study. Clinically important outcome values allow physicians to provide patients with realistic expectations regarding their treatment that are based on their specific demographics. The main objective of this program is to make the participants aware of the clinical trials.

From 07.03.2018-21.03.2018, A two-week certification program was held on on “Clinical trials” in our college by Dr. S. Ramachandran, Professor, Department of Pharmacology and 22 students participated in the programme.

## About the college

GIET School of Pharmacy was established in 2004 by Founder and Chairman Dr. K.V.V. Satyanarayana Raju, under Sri Koundinya Educational Society who is the pioneer in educational institutions of East Godavari District, Andhra Pradesh. GIET School of Pharmacy is one of few institutions in Andhra Pradesh approved by the National Assessment and Accreditation Council (NAAC), Bangalore, which illustrates its quality in academe. Considering the global focus on clinical orientation of the pharmacy profession, GIET School of Pharmacy is one of the few institutions, which introduced the Doctor of Pharmacy (Pharm.D) course in 2008, for the first time in India, with the approval from PCI.

## A Three-Week Certification Programme on Patient perspectives on Medications

### OBJECTIVES:

Medication safety incidents are commons in primary care and contributory factors for make-work can assist in our understanding of their causes. A 4 framework that is positioned from the perspective of patients would be advantageous in practice when asking patient insights into medication Safety. The aim of this study was to develop a patient centred contributory factors framework for examining medication safety incidents

#### ABOUT THE COLLEGE:

GIET School of Pharmacy was established in 2004 by Founder and Chairman Dr. K.V.V. Satyanarayana Raju, under Sri Koundinya Educational Society who is the pioneer in educational institutions of East Godavari District, Andhra Pradesh. The institute is affiliated to Andhra University, approved by AICTE and recognized by PCI, New Delhi. GIET School of Pharmacy is one of few institutions in Andhra Pradesh approved by the National Assessment and Accreditation Council (NAAC), Bangalore, which illustrates its quality in academe. Considering the global focus on clinical orientation of the pharmacy profession, GIET School of Pharmacy is one of the few institutions, which introduced the Doctor of Pharmacy (Pharm.D) course in 2008, for the first time in India, with the approval from PCI.

#### A TWO-WEEK CERTIFICATION PROGRAMME RECENT TRENDS IN HERBAL MEDICINE

##### Objective of the program

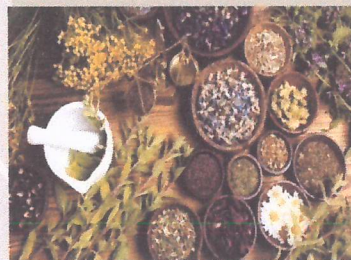

The main aim of the herbal medicine or herbal treatment is usually to produce persisting improvement in well-being. Practitioners often talk in terms of trying to treat the 'underlying cause' of disease and may prescribe herbs aimed at correcting patterns of dysfunction rather than targeting the presenting symptoms. The primary objectives is to find out the use of herbal medicine and role it could play in achieving the MDGs for health by improving accessibility and affordability to healthcare.

DATE 31.01.2018-14.02.2018

TIMINGS 9:30 AM to 12:30 PM

REGISTRATION  
FREE

GIET School of Pharmacy NH-16, Chaitanya Knowledge City Rajamahendravaram

#### Topics Covered:

- Traditional herbal preparations
- Medicine system
- Folk medicines
- Practical experience
- Botanical medicine
- Dry herb
- Fresh herb
- Fat-soluble components
- Water-soluble components
- Heat-resistant and labile compounds

#### Outcome of the program

Herbal medicine has its origins in ancient cultures. It involves the medicinal use of plants to treat disease and enhance general health and well-being. Some herbs have potent ingredients and should be taken with the same level of caution and pharmaceutical medications. The effectiveness of herbal medicines results from their bioactive components such as alkaloids, saponins, terpenoids etc. Although the herbal medicine is used mostly for treating mild to moderate illness & participants were aware of its limits. The combination of self-medication, non-expert consultation and missing risk awareness of herbal medicine is potentially harmful.

## PROGRAM REPORT

**Program name** : Recent trends in Herbal medicine A two-week certification programme

**Duration** : 31.01.2018 - 14.02.2018

**Venue** : GIET School Of Pharmacy

**Organised by** : Pharmacy college

**No. of Participants** : 59

### Objective of the program:

The main aim of the herbal medicine or herbal treatment is usually to produce persisting improvement in well-being. Practitioners often talk in terms of trying to treat the 'underlying cause' of disease and may prescribe herbs aimed at correcting patterns of dysfunction rather than targeting the presenting symptoms. The primary objectives is to find out the use of herbal medicine and role it could play in achieving the MDGs for health by improving accessibility and affordability to healthcare.

### Topics Covered:

- Traditional herbal preparations
- Medicine system
- Folk medicines
- Practical experience
- Botanical medicine
- Dry herb
- Fresh herb
- Fat-soluble components
- Water-soluble components
- Heat-resistant and labile compounds

## Outcome of the program

Herbal medicine has its origins in ancient cultures. It involves the medicinal use of plants to treat disease and enhance general health and well-being. Some herbs have potent ingredients and should be taken with the same level of caution and pharmaceutical medications. The effectiveness of herbal medicines results from their bioactive components such as alkaloids, saponins, terpenoids etc. Although the herbal medicine is used mostly for treating mild to moderate illness & participants were aware of its limits. The combination of self-medication, non-expert consultation and missing risk awareness of herbal medicine is potentially harmful.

From 31.01.2018 to 14.02.2018, A Two-week certification program was held on “Recent trends in Herbal Medicine” in our college and 59 students participated in the programme.

## ABOUT THE COLLEGE

GIET School of Pharmacy was established in 2004 by Founder and Chairman Dr. K.V.V. Satyanarayana Raju, under Sri Koundinya Educational Society who is the pioneer in educational institutions of East Godavari District, Andhra Pradesh. The institute is affiliated to Andhra University, approved by AICTE and recognized by PCI, New Delhi. GIET School of Pharmacy is one of few institutions in Andhra Pradesh approved by the National Assessment and Accreditation Council (NAAC), Bangalore, which illustrates its quality in academe. Considering the global focus on clinical orientation of the pharmacy profession, GIET School of Pharmacy is one of the few institutions, which introduced the Doctor of Pharmacy course in 2008, for the first time in India, with the approval from PCI

## GIET SCHOOL OF PHARMACY

### A TWO-WEEK CERTIFICATION PROGRAMME ON MEDICATION YOU NEED TO KNOW

DATE	TIMINGS
31.01.2018	9:30AM to 12:30 PM

## OBJECTIVE OF THE PROGRAM

Medication plays an important role in life of the pharmacist. It also includes selection, procurement, dispensing, administration and review of medications to optimise patient outcomes and its goals to relief of pain and suffering, the promotion of health and prevention of disease and cure of disease. Having this programme helps us to know about the medication safety and evaluating and implementing new medication technologies, this course provides an overview on the importance of medication that a pharmacist should know about measures to provide safe medication.

## TOPICS COVERED

- Basic knowledge on medication.
- Importance of medication.
- Selection of medication.
- Procurement of medication.
- Dispensing of medication.
- Prescription and non-prescription-based medicine.
- Medication safety.
- Drug-drug interactions.
- Administration of medicine.
- New medication techniques.
- Role of pharmacist in medication.
- Guidelines to be followed under who.
- Pilot plant scale up of medicines.
- Multidisciplinary of medicines.
- Marketing of medicines.

## OUTCOME OF THE PROGRAM

The participated students of the sessions will be able to understand the compounding and procuring of quality and safety medication to the public. This helps the future pharmacists to know how the pharmacist plays a key role in safety medication it helps the participants to understand how important the medication is for prevention of disease and cure of disease; pilot plant scale up techniques of different dosage forms the main objective of this workshop is to make participants aware of new medication technologies

## ABOUT THE COLLEGE:

GIET School of Pharmacy was established in 2004 by Founder and Chairman Dr. K.V.V. Satyanarayana Raju, under Sri Koundinya Educational Society who is the pioneer in educational institutions of East Godavari District, Andhra Pradesh. The institute is affiliated to Andhra University, approved by AICTE and recognized by PCI, New Delhi. GIET School of Pharmacy is one of few institutions in Andhra Pradesh approved by the National Assessment and Accreditation Council (NAAC), Bangalore, which illustrates its quality in academe. Considering the global focus on clinical orientation of the pharmacy profession, GIET School of Pharmacy is one of the few institutions, which introduced the Doctor of Pharmacy (Pharm.D) course in 2008, for the first time in India, with the approval from PCI.

## OBJECTIVES:

Pharmacokinetics is an important field of study which Provides important data on the behaviour of molecules within organisms. By applying pharmacokinetic principles to preclinical trails, safer and more accurate clinical trials can be designed. Giving medications in the medical field involves not only knowing what and when to give but also how to administer dosage calculations are just as important as knowing what to give. This course provides an overview and guide about the important elements to be considered in do pharmacokinetics and dosage calculations

## PROGRAM REPORT

**Program name** : Certificate course on Pharmacokinetics and dosage calculations

**Duration** : 15.11.2017 - 06.12.2017

**Venue** : GIET School Of Pharmacy

**Organised by** : Pharmacy college

**No. of Participants** : 19

### Objective of the program:

Pharmacokinetics is an important field of study which Provides important data on the behaviour of molecules within organisms. By applying pharmacokinetic principles to preclinical trails, safer and more accurate clinical trials can be designed. Giving medications in the medical field involves not only knowing what and when to give but also how to administer dosage calculations are just as important as knowing what to give. This course provides an overview and guide about the important elements to be considered in do pharmacokinetics and dosage calculations.

### Topics Covered:

- Compounds of pharmacokinetics.
- Principles of pharmacokinetics
- Parameters of pharmacokinetics.
- Basic principles of medication.
- Dosage Calculation ratio.
- Methods to calculate dosage.
- Basic formulas of dosage calculation.
- Errors in dosage calculations.
- Correction of errors in dosage calculations.
- Factors to be considered in dosage calculations.
- Drug transport systems.
- 30-minute rule in medication.
- Bioavailability of drugs.
- Pk parameters.

## Outcome of the program

The participants of the course will be able to understand the importance of pharmacokinetics and dosage calculation. This will give the idea that on how the drug passes through different pathways to give desired Therapeutic action with minimal side effects. Dosage is an important to be consider while medicating a patient. So, the participants can be able to understand why different age group of patients will have different dosage forms and how does these changes in dosage will affect patient, important factors to be considered while recommending a dosage.

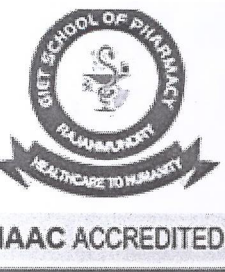

From 15.11.2017 - 06.12.2017, Certification program was held on on “Pharmacokinetics and dosage calculations” in our college by Dr. V. DSundar, Professor, Department of pharmaceutics and 19 students participated in the programme.

**ABOUT THE COLLEGE**

GIET School of Pharmacy was established in 2004 by Founder and Chairman Dr. K.V.V. Satyanarayana Raju, under Sri Koundinya Educational Society who is the pioneer in Educational institutions of East Godavari District, Andhra Pradesh. The institute is affiliated to Andhra University, approved by AICTE and recognized by PCI, New Delhi. GIET School of Pharmacy is one of few institutions in Andhra Pradesh approved by the National Assessment and Accreditation Council (NAAC), Bangalore, which illustrates its quality in academe. Considering the global focus on clinical orientation of the pharmacy profession, GIET School of Pharmacy is one of the few institutions, which introduced the Doctor of Pharmacy (Pharm.D) course in 2008, for the first time in India, with the approval from PCI.

A TWO-WEEK PROGRAM ON  
COMMUNICATION AND SKILL  
DEVELOPMENT

DATE: 07.11.2017-28.11.2017    TIMINGS: 9.30AM to 12.30 PM

GIET School of Pharmacy  
NH-16,  
Chaitanya Knowledge City  
Rajamahendravaram -533296

**GIET SCHOOL OF  
PHARMACY**

**Objective of the program**

Innovation is also about constant active listening and is impossible without an inclusive dialogue. If you don't listen, you'll never understand what problems your customers, employees and partners have that you can solve with innovation. Communicate or get left behind. skills can contribute to structural transformation and economic growth by enhancing employability and labour productivity and helping countries to become more competitive.

**REGISTRATION FREE**

Topics Covered	Outcome of the program	CONVENOR
<ul style="list-style-type: none"> <li>➤ Important innovation in communications</li> <li>➤ Trends in business communications</li> <li>➤ Current issues in communication</li> <li>➤ Modern means of communication</li> <li>➤ New communication technologies</li> <li>➤ Barriers to effective communication</li> <li>➤ Pillars of communication</li> <li>➤ Types and areas of skills development</li> <li>➤ Importance of skills development</li> </ul>	<p>The participants of this course will be able to understand the importance of communication and skills development.</p> <p>This help to produce an effective communication between the people that leads to a better relation with others.</p> <p>Skill development is an essential key that helps in attracting people at time where our skills and dedication to words word can't be shown. The main objective of this program is to make the participant more interactive and expressive person to have a better experience of communication.</p>	<p>Dr. M.D. Dhanaraju Principal <a href="mailto:mdhanaraju@giet.ac.in">mdhanaraju@giet.ac.in</a> 9440677600</p>

## PROGRAM REPORT

**Program name** : Communication and skill development.

**Duration** : 07.11.2017 - 28.11.2017

**Venue** : GIET School Of Pharmacy

**Organised by** : Pharmacy college

**No. of Participants** : 87

### Objective of the program:

Innovation is also about constant active listening and is impossible without an inclusive dialogue. If you don't listen, you'll never understand what problems your customers, employees and partners have that you can solve with innovation. Communicate or get left behind. skills can contribute to structural transformation and economic growth by enhancing employability and labour productivity and helping countries to become more competitive.

### Topics Covered:

- Important innovation in communications
- Trends in business communications
- Current issues in communication
- Modern means of communication
- New communication technologies
- Barriers to effective communication
- Pillars of communication
- Types and areas of skills development
- Importance of skills development

## Outcome of the program

The participants of this course will be able to understand the importance of communication and skills development. This help to produce an effective communication between the people that leads to a better relation with others. Skill development is an essential key that helps in attracting people at time where our skills and dedication to words word can't be shown. The main objective of this program is to make the participant more interactive and expressive person to have a better experience of communication.

From 07.11.2017-28.11.2017, A three-week certification program was held on on “Innovative communication and skill development” in our college by Mr. A. R. Magesh, Professor, Department of pharmaceutical analysis 87 students participated in the programme.

#### ABOUT THE COLLEGE:

GIET School of Pharmacy was established in 2004 by Founder and Chairman Dr. K.V.V. Satyanarayana Raju, under Sri Koundinya Educational Society who is the pioneer in Educational institutions of East Godavari District, Andhra Pradesh. The institute is affiliated to Andhra University, approved by AICTE and recognized by PCI, New Delhi.

GIET School of Pharmacy is one of few institutions in Andhra Pradesh approved by the National Assessment and Accreditation Council (NAAC), Bangalore, which illustrates its quality in academe. Considering the global focus on clinical orientation of the pharmacy profession, GIET School of Pharmacy is one of the few institutions, which introduced the Doctor of Pharmacy (Pharm.D) course in 2008, for the first time in India, with the approval from PCI.

#### A TWO-WEEK CERTIFICATION COURSE ON ADVANCES IN PHARMACEUTICAL DRUG DELIVERY

REGISTRATION FREE

#### DATE

06.11.2017-20.11.2017

#### TIMINGS

9:30AM to 12:30 PM

#### VENUE

GIET School of Pharmacy  
NH-16, Chaitanya Knowledge  
City, Rajamahendravaram -  
533296

#### OBJECTIVE OF THE PROGRAM:

Advanced drug delivery system are carriers for a wide range of pharmacotherapies used in many applications, including cancer treatment is growing rapidly as they help overcome the limitations associated with conventional drug delivery system. Drug delivery aims to potentiate the therapeutic effect of medicinal drugs by conferring augmented physicochemical feature upon them for example by overcoming the inherent instability of biologics which impairs their pharmacokinetics

#### TOPICS COVERED

- New delivery routes/ pathway.
- Within the therapeutic window.
- Widening of the therapeutic window.
- Basic researches vs product development.
- Current status of nanomedicine in cancer therapy.
- Pharmacokinetics issues.
- Pharmacodynamics issues.
- Hyped hypotheses.
- Preclinical-clinical relationship.
- The future drug delivery.

#### OUTCOME OF THE PROGRAM:

The participants of the course will be able to understand the development of novel drug delivery system plays a leading role in pharmaceutical sector nowadays. Conventional dosage forms such as tablets, capsules and emulsion are limited by several draw backs. A variety of drug delivery technologies has been developed and evaluated & numerous strategies for a controlled and targeted delivery has been explored.

## PROGRAM REPORT

**Program name** : Advances in Pharmaceutical drug delivery A Two-week  
Certification course

**Duration** : 06.11.2017 – 20.11.2017

**Venue** : GIET School Of Pharmacy

**Organised by** : Pharmacy college

**No. of Participants** : 13

### Objective of the program:

Advanced drug delivery system are carriers for a wide range of pharmacotherapies used in many applications, including cancer treatment is growing rapidly as they help overcome the limitations associated with conventional drug delivery system. Drug delivery aims to potentiate the therapeutic effect of medicinal drugs by conferring augmented physicochemical feature upon them for example by overcoming the inherent instability of biologics which impairs their pharmacokinetics

### Topics Covered:

- New delivery routes/ pathway
- Within the therapeutic window
- Widening the therapeutic window
- Basic research vs product development
- Current status of nanomedicine in cancer therapy
- Pharmacokinetics& pharmacodynamics issues
- Hyped hypotheses
- Preclinical-clinical relationship
- The future drug delivery

## Outcome of the program

The participants of the course will be able to understand the development of novel drug delivery system plays a leading role in pharmaceutical sector nowadays. Conventional dosage forms such as tablets, capsules and emulsion are limited by several draw backs. A variety of drug delivery technologies has been developed and evaluated & numerous strategies for a controlled and targeted delivery has been explored.

From 06.11.2017 to 20.11.2017 A Two-week Certification program was held on “Advances in Pharmaceutical drug delivery” in our college by Dr.M. D. Dhanaraju, Department of pharmaceuticals and 13 students participated in the Programme.

## ABOUT THE COLLEGE

GIET School of Pharmacy was established in 2004 by Founder and Chairman Dr. K.V.V. Satyanarayana Raju, under Sri Koundinya Educational Society who is the pioneer in educational institutions of East Godavari District, Andhra Pradesh. The institute is affiliated to Andhra University, approved by AICTE and recognized by PCI, New Delhi. GIET School of Pharmacy is one of few institutions in Andhra Pradesh approved by the National Assessment and Accreditation Council (NAAC), Bangalore, which illustrates its quality in academe. Considering the global focus on clinical orientation of the pharmacy profession, GIET School of Pharmacy is one of the few institutions, which introduced the Doctor of Pharmacy (Pharm.D) course in 2008, for the first time in India, with the approval from PCI.

## A TWO -WEEKS CERTIFICATION PROGRAMME ON INTRODUCTION TO HEALTH CARE

DATE: 07.09.2017-21.09.2017  
TIMINGS: 10:00 AM To 12:30 PM

GIET School of Pharmacy NH-16, Chaitanya Knowledge City Rajamahendravaram -533296

## Objective of the program

This course explores the fundamentals of the Indian health care system. Healthcare is the improvement of health via the prevention, diagnosis, treatment, a melioration or cure of disease, illness, injury and other physical and mental impairments in people healthcare helps in promoting the general physical, mental and social well-being of people around the world. It contributes the significant part of the country's economy, development and industrialisation when efficient. This program provides an overview and guide to the important elements of the health care and is aimed to provide better health to everyone.

REGISTRATION FREE

## Outcome of the program

The participated students of the certification Program will get an idea on the importance of health care, regardless of one's discipline are generally focused on the enhancement of every one's quality of life. It is important that we look at the ways in which it can be made accessibility for the communities. The main objective of this program is to make participants understand the importance of health care to provide them a better way to happy health.

"Time and Health are two precious assets that we don't recognize and appreciate until they have been depleted"

## Topics Covered

- > Basic things of health care
- > Levels of health care
- > Benefits of health care
- > Important things in health care
- > Types of health care
- > Purpose of health care
- > Primary care and health policy
- > Universal of health care
- > Challenges of health care
- > Common health issues
- > Social issues in health care
- > Health care performance measurements
- > Strategy of health care

## A TWO-WEEKS CERTIFICATION PROGRAMME ON CAMPUS RECRUITMENT TRAINING

GIET SCHOOL OF PHARMACY

### ABOUT THE COLLEGE:

GIET School of Pharmacy was established in 2004 by Founder and Chairman Dr. K.V.V. Satyanarayana Raju, under Sri Koundinya Educational Society who is the pioneer in educational institutions of East Godavari District, Andhra Pradesh. The institute is affiliated to Andhra University, approved by AICTE and recognized by PCI, New Delhi. GIET School of Pharmacy is one of few institutions in Andhra Pradesh approved by the National Assessment and Accreditation Council (NAAC), Bangalore, which illustrates its quality in academe. Considering the global focus on clinical orientation of the pharmacy profession, which introduced the Doctor of Pharmacy (Pharm.D) course in 2008, for the first time in India, with the approval from PCI.

### Objective of the program:

University recruitment helps you to engage with this emerging talent. Being present at the university provides you with the opportunity to tell students about the benefits that your company offers. You can focus on development, organizational culture, and work-life balance opportunities. To provide excellent placement support to our students by inviting eminent recruiters to our Institution recruit them through our Campus Recruitment Program. The primary aim of a recruitment and selection policy is to ensure a transparent and fair hiring process that can assist the HR personnel to select the right candidate on the basis of merit and relevance with the job.

### REGISTRATION FREE

TIMINGS  
9.30AM-12.00PM  
DATE  
08.08.2017-29.08.2017

GIET School Of Pharmacy  
NH-16,  
Chaitanya Knowledge City  
Rajamahendravaram -533296

### Topics Covered

- Importance of campus recruitment training
- What is campus recruitment training
- Objective of recruit training
- Benefits of being involved on campus
- Developing a campus recruitment strategy
- Five elements of CRT in education
- Advantages and disadvantages of CRT
- Objectives of any recruitment process
- Recruitment be improved efficiency
- Content of CRT
- Most important in recruitment process
- Conclusion of CRT

### Outcome of the program

The participants can gain knowledge how important communication skill are and skills on communications. We help students enhance their logical thinking, interview skills, and aptitude levels, all of which are important in campus placements. This kind of experience is advantageous as it is built on the self-management and problem-solving skills typically expanded at university. The candidate needs to be adequately prepared to handle the aptitude test of any of the companies. To assess the importance of campus recruitment from student's perspective

## Outcome of the program

The participants can gain knowledge how important communication skill are and skills on communications. We help students enhance their logical thinking, interview skills, and aptitude levels, all of which are important in campus placements. This kind of experience is advantageous as it is built on the self-management and problem-solving skills typically expanded at university. The candidate needs to be adequately prepared to handle the aptitude test of any of the companies. To assess the importance of campus recruitment from student's perspective.

From 08.08.2017-29.08.2017, A Three-week certification program was held on “Campus recruitment training” by Dr. T. Deepan, Department of Pharmaceutical analysis, in our college and 40 students participated in the programme.
