NSS Programme Officer Shaik Meera created awareness on Jalshakthi Abhiyan, a campaign inaugurated by the Central Government for the Water conservation in Public Library. He stated that by 2024 Rajasthan, West Bengal, Assam, Bihar, Karnataka, Punjab, Tamilnadu, Uttarakhand were threatened to be draught prone areas and 3.7% were villagers. Bore water usage is unsafe due to the ground water pollution by the pesticides and also depletion of ground water reserves will cause many life threatening diseases. So, it will be a great idea to conserve rainwater and its usage for daily needs after purification. It is also a remedy for the saline water located areas to refill the pure water to expect the pure water reserves.
