About GIET:
Established in 2004, GIET School of Pharmacy is one of the premier institutes situated in Andhra Pradesh. The institute is famous for offering bachelors, masters and doctorate programmes in the field of Pharmaceutical Science stream. The courses are

- B.Pharm,
- M.Pharm,
- Pharm.D,
- Pharm.D (PB)

Admissions are offered on the basis of state level and national level entrances such as AP EAMCET and GPAT.

GIET School of Pharmacy is well known for their academe as well as extracurricular and cultural activities. Internships are also encouraged which helps students in the campus placement drives.

The pharmaceutical industry has a number of unusual characteristics, both in its structure and in the nature of its business operations, which are little known outside the industry but which materially affect the process of bringing new pharmaceuticals to the patient. The development of a new pharmaceutical is very time consuming, extremely costly and high risk, with very little chance of a successful outcome. The process of research & development is described, together with all its challenges.

The commercial realities and constraints of the business, together with its current problems, are discussed, followed by an exploration of some of the likely future commercial and technical developments in the business, including the development of a greener pharmacy

Nanotechnology deals with the engineering of systems at the atomic and molecular level. It combines components of molecular chemistry and physics with engineering to gain an advantage over the unique changes to the properties of materials that occur at a nanoscale. A major challenge facing the **nanotechnology** is the human body's inability to sometimes absorb entire doses of drugs. This is where nanotechnology comes into the picture. Nanotechnology can be used to transport the drug to specific cells in the body, which not only ensures a more precise treatment but also reduces the chances of failure or rejection.

About GIET:
Established in 2004, GIET School of Pharmacy is one of the premier institutes situated in Andhra Pradesh. The institute is famous for offering bachelors, masters and doctorate program in the field of Pharmaceutical Science stream. The courses are

- B.Pharm,
- M.Pharm,
- Pharm.D,
- Pharm.D (PB)

Admissions are offered on the basis of state level and national level entrances such as AP EAMCET and GPAT. GIET School of Pharmacy is well known for their academe as well as extracurricular and cultural activities. Internships are also encouraged which helps students in the campus placement drives.

Research reports are recorded data prepared by researchers or statisticians after analyzing information gathered by conducting organized research, typically in the form of surveys or qualitative methods. A research report is a reliable source to recount details about a conducted research and is most often considered to be a true testimony of all the work done to garner specificities of research.

The various sections of a research report are:

- ❖ Summary
- ❖ Background/Introduction
- ❖ Implemented Methods
- ❖ Results based on Analysis
- ❖ Deliberation
- ❖ Conclusion

MEMORANDUM OF UNDERSTANDING On Academic training and cooperation between

**Lenora Institute of Dental Sciences, Rajahmundry, E. G. District, A.P
And
GIET School of Pharmacy, Rajahmundry, E. G. District, A.P.**

1. Purpose

With the object of promoting their co-operation in academic education and research, Lenora Institute of Dental Sciences, Rajahmundry ("LIDS") and GIET School of Pharmacy, Rajahmundry, individually also "Party" and collectively the "Parties", enter into the following Memorandum of Understanding ("MoU").

2. Forms of Co-operation

Within such fields as are mutually acceptable for the Parties, the following forms of co-operation, amongst others, may be pursued hereunder:

- Training Drug formulations for Post Graduate students.
- Co-operation in academic projects for specified areas of development
- Opportunities for other forms of co-operation.

3. Specific Co-operation Projects

Specific co-operation projects, for instance within such fields as described in section 2 above, must be negotiated separately between the Parties and are in each specific case to be established in separate written agreements, stating the respective rights and obligations of the Parties. In case of any ambiguity or conflict of terms between the terms and conditions of this MoU and those of a separate agreement as mentioned above, the terms and conditions of such separate agreement shall prevail.

4. Financial Arrangements

Both Parties understand that all financial arrangements between the Parties have to be further negotiated and mutually agreed, and will depend on the availability of funds. Both parties may seek financing of joint activities from internal and external sources available to them.

5. Liability

Except for loss or damages caused through gross negligence or intent, the Parties shall have no liability to each other hereunder.

6. Legal Relationship

This MoU shall be construed as a statement of purpose to promote a genuine and mutually beneficial collaboration between the Parties. Nothing in this MoU shall create any legal relationship between the Parties.

7. Commencement, Renewal, Termination

This MoU will be effective from the date of the last signature hereto and will remain in force for a time period of one (1) year, with a possibility for renewal at the end of the period, subject to the Parties written agreement. Either Party may terminate this MoU by giving two months' notice in writing to the other Party.

This MoU has been drawn up in two (2) original copies in the English language, each Party receiving one duly signed copy hereof.

IQAC Organized Five Day Faculty Development Program

Recent Trends in Pharmaceutical Sciences

Date: 11th-15th September 2017

Venue : Conference hall GIET SCHOOL OF PHARMACY

Registration Fee: 300/-

About GIET:
Established in 2004, GIET School of Pharmacy is one of the premier institutes situated in Andhra Pradesh. The institute is famous for offering bachelors, masters and doctorate programmes in the field of Pharmaceutical Science stream. The courses are

- B.Pharm,
- M.Pharm,
- Pharm.D,
- Pharm.D (PB)

Admissions are offered on the basis of state level and national level entrances such as AP EAMCET and GPAT.

GIET School of Pharmacy is well known for their academe as well as extracurricular and cultural activities. Internships are also encouraged which helps students in the campus placement drives.

The pharmaceutical industry has a number of unusual characteristics, both in its structure and in the nature of its business operations, which are little known outside the industry but which materially affect the process of bringing new pharmaceuticals to the patient. The development of a new pharmaceutical is very time consuming, extremely costly and high risk, with very little chance of a successful outcome. The process of research & development is described, together with all its challenges.

The commercial realities and constraints of the business, together with its current problems, are discussed, followed by an exploration of some of the likely future commercial and technical developments in the business, including the development of a greener pharmacy

About GIET:

Established in 2004, GIET School of Pharmacy is one of the premier institutes situated in Andhra Pradesh. The institute is famous for offering bachelors, masters and doctorate program in the field of Pharmaceutical Science stream. The courses are

- B.Pharm,
- M.Pharm,
- Pharm.D,
- Pharm.D (PB)

Admissions are offered on the basis of state level and national level entrances such as AP EAMCET and GPAT.

GIET School of Pharmacy is well known for their academe as well as extracurricular and cultural activities. Internships are also encouraged which helps students in the campus placement drives.

Nanotechnology deals with the engineering of systems at the atomic and molecular level. It combines components of molecular chemistry and physics with engineering to gain an advantage over the unique changes to the properties of materials that occur at a nanoscale. A major challenge facing the **nanotechnology** is the human body's inability to sometimes absorb entire doses of drugs. This is where nanotechnology comes into the picture. Nanotechnology can be used to transport the drug to specific cells in the body, which not only ensures a more precise treatment but also reduces the chances of failure or rejection.

About GIET:

Established in 2004, GIET School of Pharmacy is one of the premier institutes situated in Andhra Pradesh. The institute is famous for offering bachelors, masters and doctorate program in the field of Pharmaceutical Science stream. The courses are

- B.Pharm,
- M.Pharm,
- Pharm.D,
- Pharm.D (PB)

Admissions are offered on the basis of state level and national level entrances such as AP EAMCET and GPAT.

GIET School of Pharmacy is well known for their academe as well as extracurricular and cultural activities. Internships are also encouraged which helps students in the campus placement drives.

Research reports are recorded data prepared by researchers or statisticians after

analyzing information gathered by conducting organized research, typically in the form of surveys or qualitative methods. A research report is a reliable source to recount details about a conducted research and is most often considered to be a true testimony of all the work done to garner specificities of research.

The various sections of a research report are:

- ❖ Summary
- ❖ Background/Introduction
- ❖ Implemented Methods
- ❖ Results based on Analysis
- ❖ Deliberation
- ❖ Conclusion

About the college:

GIET School of Pharmacy was established in 2004 by Founder and Chairman Dr. K.V.V. Satyanarayana Raju, under Sri Koundinya Educational Society who is the pioneer in educational institutions of East Godavari District, Andhra Pradesh. The institute is affiliated to Andhra University, approved by AICTE and recognized by PCI, New Delhi. GIET School of Pharmacy is one of few institutions in Andhra Pradesh approved by the National Assessment and Accreditation Council (NAAC), Bangalore, which illustrates its quality in academe. Considering the global focus on clinical orientation of the pharmacy profession, GIET School of Pharmacy was introduced the Doctor of Pharmacy (Pharm.D) course in 2008 with the approval from PCI.

Course offered

B Pharm:
Bachelor of Pharmacy (B.Pharm) is an undergraduate degree course in the field of Pharmacy education. The students those are interested in the medical field (except to become a doctor) can choose this course after the completion of class 12th. can work in a range of industries related to the prescription, manufacture & provision of medicines. The duration of this course is 4 years.

Pharm D:
Doctor of Pharmacy (Pharm D) is a professional degree in pharmacy. The Pharm D course lasts six years in total, with five years of classroom instruction and one year of practical training. The only doctoral degree that can be pursued immediately after finishing the 10+2 exams. Furthermore, B Pharm graduates can pursue a Pharm D course by applying for a lateral entry program, i.e. Pharm D course (Post Baccalaureate).

M Pharm:
A Master of Pharmacy degree holder is one pharmacy course that is structured in a way to provide entire technical, researched, practical and theoretical knowledge of pharmacy including traditional and modern medicines. The degree is of great value because a person holding this degree is as knowledgeable as a medical practitioner with years of experience, in fact, way ahead of doctors by acquiring knowledge with experience of complete health care industry. Guidelines for Writing an Effective Research Paper

About the programme :

Content of Research Paper

1. Title Page
2. Table of Contents including page numbers (see example given)
3. Introduction: here you give your topic/central idea, probably an explanation for it and a thesis statement, which means that you state something which you are then trying to prove in your paper
4. Main part (structured into subchapters): your analysis of the topic
5. Conclusion: here you sum up the main points/findings of your paper and point out whether your thesis proved right or wrong; give answers to (implicit) questions raised in your thesis statement/introduction
6. Bibliography/Works Cited:

Writing the Introduction

DOs	DON'Ts
present relevant background or contextual material	avoid presenting results of your analysis in the introduction
explain the focus of the paper and your specific purpose	avoid giving irrelevant information that does not relate to your central idea
define terms or concepts when necessary	avoid giving endless information on the author
reveal your plan of organisation	avoid giving summaries of the plot

About GIET:

Established in 2004, GIET School of Pharmacy is one of the premier institutes situated in Andhra Pradesh. The institute is famous for offering bachelors, masters and doctorate program in the field of Pharmaceutical Science stream. The courses are

- B.Pharm,
- M.Pharm,
- Pharm.D,
- Pharm.D (PB)

Admissions are offered on the basis of state level and national level entrances such as AP EAMCET and GPAT.

GIET School of Pharmacy is well known for their academe as well as extracurricular and cultural activities. Internships are also encouraged which helps students in the campus placement drives.

Research reports are recorded data prepared by researchers or statisticians after

analyzing information gathered by conducting organized research, typically in the form of surveys or qualitative methods. A research report is a reliable source to recount details about a conducted research and is most often considered to be a true testimony of all the work done to garner specificities of research.

The various sections of a research report are:

- ❖ Summary
- ❖ Background/Introduction
- ❖ Implemented Methods
- ❖ Results based on Analysis
- ❖ Deliberation
- ❖ Conclusion

About GIET:

Established in 2004, GIET School of Pharmacy is one of the premier institutes situated in Andhra Pradesh. The institute is famous for offering bachelors, masters and doctorate program in the field of Pharmaceutical Science stream. The courses are

- B.Pharm,
- M.Pharm,
- Pharm.D,
- Pharm.D (PB)

Admissions are offered on the basis of state level and national level entrances such as AP EAMCET and GPAT.

GIET School of Pharmacy is well known for their academe as well as extracurricular and cultural activities. Internships are also encouraged which helps students in the campus placement drives.

Nanotechnology deals with the engineering of systems at the atomic and molecular level. It combines components of molecular chemistry and physics with engineering to gain an advantage over the unique changes to the properties of materials that occur at a nanoscale. A major challenge facing the **nanotechnology** is the human body's inability to sometimes absorb entire doses of drugs. This is where nanotechnology comes into the picture. Nanotechnology can be used to transport the drug to specific cells in the body, which not only ensures a more precise treatment but also reduces the chances of failure or rejection.

About the college:

GIET School of Pharmacy was established in 2004 by Founder and Chairman Dr. K.V.V. Satyanarayana Raju, under Sri Koundinya Educational Society who is the pioneer in educational institutions of East Godavari District, Andhra Pradesh. The institute is affiliated to Andhra University, approved by AICTE and recognized by PCI, New Delhi. GIET School of Pharmacy is one of few institutions in Andhra Pradesh approved by the National Assessment and Accreditation Council (NAAC), Bangalore, which illustrates its quality in academic considering the global focus on clinical orientation of the pharmacy profession. GIET School of Pharmacy was introduced the Doctor of Pharmacy (Pharm.D) course in 2008 with the approval from PCI.

Course offered:

B Pharm: Bachelor of Pharmacy (B.Pharm) is an undergraduate degree course in the field of Pharmacy education. The students those are interested in the medical field (except to become a doctor) can choose this course after the completion of class 12th. The duration of this course is 4 years.

Pharm D: Doctor of Pharmacy (Pharm D) is a professional degree in pharmacy. The Pharm D course lasts six years in total, with five years of classroom instruction and one year of practical training. The only doctoral degree that can be pursued immediately after finishing the 10+2 exams. Furthermore, B Pharm graduates can pursue a Pharm D course by applying for a lateral entry program, i.e., Pharm D course (Post Baccalaureate).

M Pharm: A Master of Pharmacy degree holder is one pharmacy course that is structured in a way to provide entire technical, researched, practical and theoretical knowledge of pharmacy including traditional and modern medicines. The degree is of great value because a person holding this degree is as knowledgeable as a medical practitioner with years of experience, in fact, way ahead of doctors by acquiring knowledge with experience of complete health care industry.

ABOUT THE PROGRAMME

Antibiotics are medicines that fight bacterial infections in people and animals. They work by killing the bacteria or by making it hard for the bacteria to grow and multiply.

How do we use antibiotics correctly?

Always follow the directions carefully. Finish your medicine even

if you feel better. If you stop taking them too soon, some bacteria may survive and re-infect you.

Don't save your antibiotics for later.

Don't share your antibiotic with others.

Don't take antibiotics prescribed for someone else. This may delay the best treatment for you, make you even sicker, or cause side effects.

One-day seminar on “Antibiotics and its research” at GIET School of Pharmacy

One-day seminar on “Antibiotics and its research” has been organized by IQAC Cell GIET School of Pharmacy, Rajahmundry, Andhra Pradesh on 12-04-2018 for B.Pharm and Pharm D students.

Mrs Pydi Geetha Bhavani, Associate Professor, Vikas Institute of Pharmaceutical sciences, Rajahmundry, acted as a chief guest & speaker and Dr M.D Dhanaraju GIET School of Pharmacy was presiding over the inaugural function. The welcome address was delivered by Dr R Vijayalakshmi.

The inaugural function was followed by the Seminar on “Antibiotics and its research” by Mrs. Pydi Geetha Bhavani. She focuses on antibiotics. She said that antibiotics are powerful drugs used to treat diseases caused by bacteria. They disrupt essential processes or structures in the bacterial cell. This either kills the bacterium or slows down bacterial growth. Depending on these effects an antibiotic is said to be bactericidal or bacteriostatic. In addition to that, she said that the essential target of therapy with antibiotics is the successful treatment of individual patients with bacterial infections. The optimal clinical treatment results can only be achieved when the toxicity, selection of pathogens and development of resistance are minimized.

Nanotechnology deals with the engineering of systems at the atomic and molecular level. It combines components of molecular chemistry and physics with engineering to gain an advantage over the unique changes to the properties of materials that occur at a nanoscale. A major challenge facing the **nanotechnology** is the human body's inability to sometimes absorb entire doses of drugs. This is where nanotechnology comes into the picture. Nanotechnology can be used to transport the drug to specific cells in the body, which not only ensures a more precise treatment but also reduces the chances of failure or rejection.

About GIET:

Established in 2004, GIET School of Pharmacy is one of the premier institutes situated in Andhra Pradesh. The institute is famous for offering bachelors, masters and doctorate program in the field of Pharmaceutical Science stream. The courses are

- B.Pharm,
- M.Pharm,
- Pharm.D,
- Pharm.D (PB)

Admissions are offered on the basis of state level and national level entrances such as AP EAMCET and GPAT.

GIET School of Pharmacy is well known for their academe as well as extracurricular and cultural activities. Internships are also encouraged which helps students in the campus placement drives.

Research reports are recorded data prepared by researchers or statisticians after

analyzing information gathered by conducting organized research, typically in the form of surveys or qualitative methods. A research report is a reliable source to recount details about a conducted research and is most often considered to be a true testimony of all the work done to garner specificities of research.

The various sections of a research report are:

- ❖ Summary
- ❖ Background/Introduction
- ❖ Implemented Methods
- ❖ Results based on Analysis
- ❖ Deliberation
- ❖ Conclusion

About GIET:
Established in 2004, GIET School of Pharmacy is one of the premier institutes situated in Andhra Pradesh. The institute is famous for offering bachelors, masters and doctorate programmes in the field of Pharmaceutical Science stream. The courses are

- B.Pharm,
- M.Pharm,
- Pharm.D,
- Pharm.D (PB)

Admissions are offered on the basis of state level and national level entrances such as AP EAMCET and GPAT.

GIET School of Pharmacy is well known for their academe as well as extracurricular and cultural activities. Internships are also encouraged which helps students in the campus placement drives.

The pharmaceutical industry has a number of unusual characteristics, both in its structure and in the nature of its business operations, which are little known outside the industry but which materially affect the process of bringing new pharmaceuticals to the patient. The development of a new pharmaceutical is very time consuming, extremely costly and high risk, with very little chance of a successful outcome. The process of research & development is described, together with all its challenges.

The commercial realities and constraints of the business, together with its current problems, are discussed, followed by an exploration of some of the likely future commercial and technical developments in the business, including the development of a greener pharmacy
