### 3.2.2 Number of workshops/seminars conducted on Research Methodology, Intellectual

#### Property Rights (IPR) and entrepreneurship during the year 2019-20

S.No	Name of the workshop/ seminar	Number of Participants	Date From – To
1	A one day seminar on "Drug design research: Molecular modelling"-Seminar	50	27-06-19
2	Drafting of research and review paper for indexed journals- Seminar	40	16-07-19
3	A one day seminar on "Opportunities of pharmacy graduates and entrepreneurship"-Seminar	42	23-08-19
4	A one day seminar on "Quantitative research"- Seminar	47	30-09-19
5	A one day seminar on "Generic drugs"-Seminar	40	04-11-19
6	A one day seminar on "A review on herbal medicine Current trends and future prospects"-Seminar	23	20-11-19
7	A one day seminar on "Ethics in Research"-Seminar	50	03-01-20
8	A one day seminar on "Research methodology: Method and techniques"-Seminar	35	11-02-20
9	Skills of Entrepreneurship-Seminar	42	14-03-20
10	A one day Webinar on Covid 19 and its research- Webinar	35	23-04-20

## About the College :

GIET School of Pharmacy was established in 2004 by Founder and Chairman Dr. K.V.V. Satyanarayana Raju, under Sri Koundinya Educational Society who is the pioneer in educational institutions of East Godavari District, Andhra Pradesh. The institute is affiliated to Andhra University, approved by AICTE and recognized by PCI, New Delhi. GIET School of Pharmacy is one of few institutions in Andhra Pradesh approved by the National Assessment and Accreditation Council (NAAC), Bangalore, which illustrates its quality in academic. Considering the global focus on clinical orientation of the pharmacy profession, GIET School of Pharmacy was introduced the Doctor of Pharmacy (Pharm.D) course in 2008 with the approval from PCI.

### Course offered

**B Pharm:** The students those are interested in the medical field (except to become a doctor) can choose this course after the completion of class 12th. can work in a range of industries related to the prescription, manufacture & provision of medicines. The duration of this course is 4 years.

**Pharm D:** The Pharm D course lasts six years in total, with five years of classroom instruction and one year of practical training. The only doctoral degree that can be pursued immediately after finishing the 10+2 exams. Furthermore, B Pharm graduates can pursue a Pharm D course by applying for a lateral entry program, i.e., Pharm D course (Post Baccalaureate).

**M Pharm:** A Master of Pharmacy degree holder is one pharmacy course that is structured in a way to provide entire technical, researched practical and theoretical knowledge of pharmacy including traditional and modern medicines. The degree is of great value because a person holding this degree is as knowledgeable as a medical practitioner with years of experience, in fact, way ahead of doctors by acquiring knowledge with experience of complete health care industry.

## About the programme;

Drug design is the inventive process of finding new medications based on the knowledge of a biological target. In the most basic sense, drug design involves the design of molecules that are complementary in shape and charge to the molecular target with which they interact and bind.

Molecular modeling is the science of representing molecular structures numerically and simulating their behavior with the equations of quantum and classical physics. The drug designing softwares such as Insight II, Discovery Studio, Materials Studio, Accord, Prime and Jaguar are used for structure based drug designing and drug designing softwares such as Glide, Macro Model, Autodock and Argus lab are used for ligand based drug designing. Molecular modeling describes the generation, representation and/or manipulation of 3-D structure of chemical and biological molecules, along with determination of physicochemical properties that can help to interpret structural activity relationship (SAR) of the biological molecules.

One-day seminar on “Drug design research: Molecular modelling” at GIET School of Pharmacy

One-day seminar on “Drug design research: Molecular modelling” has been organized by IQAC Cell GIET School of Pharmacy, Rajahmundry Andhra Pradesh on 27-06-2019 for B.Pharm and Pharm D students.

**Ms. Pydi Geetha Bhavani**, Associate Professor, Vikas Institute of Pharmaceutical sciences, Rajahmundry, acted as a chief guest & speaker and Dr M.D Dhanaraju GIET School of Pharmacy was presiding over the inaugural function. The welcome address was delivered by Dr T Deepan.

The inaugural function was followed by the Seminar on “Drug design research: Molecular modelling” delivered by Dr. Ms. Pydi Geetha Bhavani. She focuses on Molecular modelling, She said that it helps in understanding the fundamentals of physical and chemical interactions, which are difficult to calculate using experimental procedures. It also helps in the development of new theories, models, processes, and products. It is the science of representing molecular structures numerically and simulating their behaviour with the equations of quantum and classical physics. It is the science of representing molecular structures numerically and simulating their behavior with the equations of quantum and classical physics.

### ABOUT THE PROGRAMME

Research paper should tell a story of how you began your research, what you found, and how it advances your research field. It is important to structure your research paper so that editors and readers can easily find information. The widely adopted structure that research papers mostly follow is the IMRaD format. IMRaD stands for Introduction, Methods, Results, and Discussion. Additional requirements from journals include an abstract, keywords, acknowledgements, and references. This format helps scientists to tell their story in an organized manner. Authors often find it easier to write the IMRaD sections in a different order.

#### IMPORTANCE OF PUBLICATION:

- Creation of research facilities
- Innovation
- Impact on Society and Community Development
- Increase Standard of Living
- Supports research and development.

One-day seminar on “Drafting of research and review paper for indexed journals” at

GIET School of Pharmacy

One-day seminar on “Drafting of research and review paper for indexed journals” has been organized by IQAC Cell GIET School of Pharmacy, Rajahmundry Andhra Pradesh on 16-07-2019 for faculty, PG and UG students.

**Dr.Y.A. Chowdary**, Principal & Professor, NRI College of Pharmacy, Pothavarappadu acted as a chief guest & speaker and Dr M.D Dhanaraju GIET School of Pharmacy was presiding over the inaugural function. The welcome address was delivered by Dr V D Sundar.

The inaugural function was followed by the Seminar on “Drafting of research and review paper for indexed journals” delivered by Dr.Y.A. Chowdary. He focuses on various drafting techniques for publishing the research paper and review paper in indexed journals. Note any discussions that seem important to the topic, and try to find an issue that you can focus your paper around. Use a variety of sources, including journals, books and reliable websites, to ensure you do not miss anything glaring. Do not only verify the ideas you have in mind, but look for sources that contradict your point of view.

### About the College :

GIET School of Pharmacy was established in 2004 by Founder and Chairman Dr. K.V.V. Satyanarayana Raju, under Sri Koundinya Educational Society who is the pioneer in educational institutions of East Godavari District, Andhra Pradesh. The institute is affiliated to Andhra University, approved by AICTE and recognized by PCI, New Delhi. GIET School of Pharmacy is one of few institutions in Andhra Pradesh approved by the National Assessment and Accreditation Council (NAAC), Bangalore, which illustrates its quality in academe. Considering the global focus on clinical orientation of the pharmacy profession, GIET School of Pharmacy was introduced the Doctor of Pharmacy (Pharm.D) course in 2008 with the approval from PCI.

### Course offered

**B Pharm:** The students those are interested in the medical field (except to become a doctor) can choose this course after the completion of class 12th, can work in a range of industries related to the prescription, manufacture & provision of medicines. The duration of this course is 4 years.

**Pharm D:** The Pharm D course lasts six years in total, with five years of classroom instruction and one year of practical training. The only doctoral degree that can be pursued immediately after finishing the 10+2 exams. Furthermore, B Pharm graduates can pursue a Pharm D course by applying for a lateral entry program, i.e., Pharm D course (Post Baccalaureate).

**M Pharm:** A Master of Pharmacy degree holder is one pharmacy course that is structured in a way to provide entire technical, researched, practical and theoretical knowledge of pharmacy including traditional and modern medicines. The degree is of great value because a person holding this degree is as knowledgeable as a medical practitioner with years of experience, in fact, way ahead of doctors by acquiring knowledge with experience of complete health care industry.

### About the program:

Pharmacy course equipped students with enough technical knowledge in the field of medicine so that they can take up a job in the healthcare sector, pharmaceutical industry or research laboratory or they can even open up their medical shop and become Pharma entrepreneurs.

A career in pharmacy is still seen as a viable option. It is a great job if you enjoy helping people. Even if you have little or no prior job experience, you will be able to find work that pays well if you meet the necessary academic criteria and, of course, have a license to practice..

Let's know the ideas to be an entrepreneur after pharmacy.

- Pharmacy store:
- After completing any pharmacy degree course, most of the students don't want to open their pharmacy stores. ...
- Franchise pharmacy store: ...
- Franchise Clinic: ...
- Wholesale of medicine: ...
- Online pharmacy store: ...
- Manufacturing of medicines...etc

One-day seminar on “**Opportunities of pharmacy graduates and entrepreneurship**” at GIET  
School of Pharmacy

One-day seminar on “Opportunities of pharmacy graduates and entrepreneurship” has been organized by IQAC Cell GIET School of Pharmacy, Rajahmundry Andhra Pradesh on 23-08-2019 for PG and UG students.

Mr. Senniyappan, Assistant Professor, Vinayaka Mission pharmacy college, Salem, Tamil Nadu, acted as a chief guest & speaker and Dr M.D Dhanaraju GIET School of Pharmacy was presiding over the inaugural function. The welcome address was delivered by Dr C Gopi.

The inaugural function was followed by the Seminar on “Opportunities of pharmacy graduates and entrepreneurship” delivered by Mr. Senniyappan. He focused on Opportunities of pharmacy graduates, Bachelor of Pharmacy (B.pharm) is a 4-year undergraduate course designed to provide students with a deeper understanding of the pharmacy sector. The pharmacy industry is a major contributing factor in the supply and development of newly approved drugs, medicines, and experimental counterparts. In addition, Pharmacy practitioners are involved in the production and development of drugs as well as their quality control and alterations. The pharmacy sector’s integral part in health care makes the pharmacy career options highly sought after and lucrative. This degree will also ensure that you can get into the highest paying pharmacy jobs. He also said that how to change yourself as an entrepreneur after the completion of degree.

**M Pharm:** A Master of Pharmacy degree holder is one pharmacy course that is structured in a way to provide entire technical, researched, practical and theoretical knowledge of pharmacy including traditional and modern medicines. The degree is of great value because a person holding this degree is as knowledgeable as a medical practitioner with years of experience, in fact, way ahead of doctors by acquiring knowledge with experience of complete health care industry.

### About the programme :

Quantitative research deals in numbers, logic, and an objective stance. Quantitative research focuses on numeric and unchanging data and detailed, convergent reasoning rather than divergent reasoning. Quantitative research collects information from existing and potential customers using sampling methods and sending out online surveys, online polls, and questionnaires, for example. The results of which can be depicted in the form of numerical. Quantitative research collects information from existing and potential customers using sampling methods and sending out online surveys, online polls, and questionnaires

Quantitative research is widely used in psychology, economics, demography, sociology, marketing, community health, health & human development, gender studies, and political science; and less frequently in anthropology and history. Research in mathematical sciences, such as physics, is also "quantitative" by definition, though this use of the term differs in context. In the social sciences, the term relates to empirical methods originating in both philosophical positivism and the history of statistics, in contrast with qualitative research methods.

There are four main types of Quantitative research:  
Descriptive, Correlational,  
Causal-Comparative/Quasi-Experimental  
Experimental Research.

One-day seminar on “Quantitative Research” at GIET School of Pharmacy

One-day seminar on “Quantitative Research” has been organized by IQAC Cell GIET School of Pharmacy, Rajahmundry Andhra Pradesh on 30-09-2019 for PG and UG students.

**Dr. Kiranmai, Professor**, GIET Engineering College, Rajahmundry acted as a chief guest & speaker and Dr M.D Dhanaraju GIET School of Pharmacy was presiding over the inaugural function. The welcome address was delivered by Dr R Vijayalakshmi.

The inaugural function was followed by the Seminar on “Quantitative Research” delivered by Dr. Kiranmai. She focuses on Quantitative research, it is a systematic investigation of phenomena by gathering quantifiable data and performing statistical, mathematical, or computational techniques. Quantitative research collects information from existing and potential customers using sampling methods and sending out online surveys, online polls, and questionnaires. The results of which can be depicted in the form of numerical. After careful understanding of these numbers to predict the future of a product or service and make changes accordingly.

### About the programme:

A generic drug is a pharmaceutical drug that contains the same chemical substance as a drug that was originally protected by chemical patents. Generic drugs are allowed for sale after the patents on the original drugs expire. A generic drug has the same active pharmaceutical ingredients (API) as the original, but it may differ in some characteristics such as the manufacturing process, formulation, excipients, color, taste, and packaging. Once generic drugs enter the market, competition often leads to substantially lower prices for both the original brand-name product and its generic equivalents.

Today, drug resistant infections are a serious threat to people's health. Discovering new antibiotics able to kill drug-resistant bacteria is essential to saving modern medicine.

As the foundation of the biosphere and major determinants of human health, microbes claim a primary fundamental role in life on earth. Hence, the study of microbes is pivotal to the study of all living things, and microbiology is essential for the study and understanding of all life on this planet.

One-day seminar on “Generic drug business” at GIET School of Pharmacy

One-day seminar on “Generic drug business” has been organized by IQAC Cell, GIET School of Pharmacy, Rajahmundry Andhra Pradesh on 14-11-2019 for PG and UG students.

**Dr.X.Antro Jennie**, Professor, Vasavi College of Pharmaceutical Sciences, Tadepalligudem acted as a chief guest & speaker and Dr M.D Dhanaraju, Principal, GIET School of Pharmacy was presiding over the inaugural function. The welcome address was delivered by Dr S Ramachandran.

The inaugural function was followed by the Seminar on “Generic drug business” by Dr.X.Antro Jennie. He focuses on generic drugs. He questioned, What are generic drugs? A generic drug is a medication created to be the same as an already marketed brand-name drug in dosage form, safety, strength, route of administration, quality, performance characteristics, and intended use. He also said that FDA-approved generic medicines work in the same way and provide the same clinical benefit and risks as their brand-name counterparts. A generic medicine is required to be the same as a brand-name medicine in dosage, safety, effectiveness, strength, stability, and quality, as well as in the way it is taken.

### About the programme;

Traditional medicine also known as indigenous or folk medicine comprises medical knowledge systems that developed over generations within various societies before the era of modern medicine. Global pharmaceutical market was worth US \$550 billion in 2004 and is expected to exceed US \$1100 billion or more by the year 2015. The herbal industry shares about US \$100 billion with good growth potential. The World Bank report trade in medicinal plants, botanical drugs products and raw materials is growing at annual growth rate of about 15%. Within the European community botanical medicine represents an import share of the pharmaceutical market. Natural products compounds discovered from medicinal plants have provided numerous clinically useful drugs in the treatment of chronic and or acute disease and still remain as an essential component in the search for new medicines. So, these plants can be used to find new chemical entity for treatment of acute & chronic diseases.

Extraction of medicinal plants is a process of separating active plant materials or secondary metabolites such as alkaloids, flavonoids, terpenes, saponins, steroids, and glycosides from inert or inactive material using an appropriate solvent and standard extraction procedure.

One-day seminar on “A review on herbal medicine Current trends and future prospects” at  
GIET School of Pharmacy

One-day seminar on “A review on herbal medicine Current trends and future prospects” has  
been organized by IQAC Cell GIET School of Pharmacy, Rajahmundry Andhra Pradesh on  
20-11-2019 for PG and UG students.

**Dr. Heera Battu**, Assistant Professor, Department of Pharmaceutical Sciences, Adikavi  
Nannaya University, Tadepalligudam acted as a chief guest & speaker and Dr M.D Dhanaraju  
GIET School of Pharmacy was presiding over the inaugural function. The welcome address  
was delivered by Mrs Alekhya.

The inaugural function followed by the Seminar on “A review on herbal medicine Current  
trends and future prospects” delivered by Dr. Heera Battu. He focuses on A review on herbal  
medicine Current trends and future prospects, It is use of plants to treat disease and enhance  
general health and wellbeing. Herbs can interact with other pharmaceutical medications and  
should be taken with care. Always see your regular medical doctor (GP) about any health  
concerns and tell them about any herbal medicines you are taking or thinking of taking. Never  
stop taking prescribed medications in favour of herbs without first discussing it with your GP.  
Be careful about purchasing herbal medicines over the internet. Unregulated herbal medicines,  
such as some traditional folk medicines, may not be manufactured to the same quality and  
standard as regulated medicines.

### ABOUT THE COLLEGE:

GIET School of Pharmacy was established in 2004 by Founder and Chairman Dr. K.V.V. Satyanarayana Raju, under Sri Koundinya Educational Society who is the pioneer in educational institutions of East Godavari District, Andhra Pradesh. The institute is affiliated to Andhra University, approved by AICTE and recognized by PCI, New Delhi.

GIET School of Pharmacy is one of few institutions in Andhra Pradesh approved by the National Assessment and Accreditation Council (NAAC), Bangalore, which illustrates its quality in academe. Considering the global focus on clinical orientation of the pharmacy profession, GIET School of Pharmacy was introduced the Doctor of Pharmacy (Pharm.D) course in 2008 with the approval from PCI.

#### Course offered

**B Pharm:** Bachelor of Pharmacy (B.Pharm) is an undergraduate degree course in the field of Pharmacy education. The students those are interested in the medical field (except to become a doctor) can choose this course after the completion of class 12th. can work in a range of industries related to the prescription, manufacture & provision of medicines. The duration of this course is 4 years.

**Pharm D:** Doctor of Pharmacy (Pharm D) is a professional degree in pharmacy. The Pharm D course lasts six years in total, with five years of classroom instruction and one year of practical training. The only doctoral degree that can be pursued immediately after finishing the 10+2 exams. Furthermore, B Pharm graduates can pursue a Pharm D course by applying for a lateral entry program, i.e., Pharm D course (Post Baccalaureate).

**M Pharm:** A Master of Pharmacy degree holder is one pharmacy course that is structured in a way to provide entire technical, researched, practical and theoretical knowledge of pharmacy including traditional and modern medicines. The degree is of great value because a person holding this degree is as knowledgeable as a medical practitioner with years of experience, in fact, way ahead of doctors by acquiring knowledge with experience of complete health care industry.

**Registration opens on:**  
**23rd December 2019**

**Registration closes on:**  
**2nd January 2020**

**Venue: Seminar Hall, GIET School of Pharmacy**

### ABOUT THE PROGRAMME

Research methodology is a way of explaining how a researcher intends to carry out their research. It's a logical, systematic plan to resolve a research problem. A methodology details a researcher's approach to the research to ensure reliable, valid results that address their aims and objectives. It encompasses what data they're going to collect and where from, as well as how it's being collected and analyzed.

A research methodology gives research legitimacy and provides scientifically sound findings. It also provides a detailed plan that helps to keep

## One-day seminar on “Ethics in Research” at GIET School of Pharmacy

One day seminar on “Ethics in Research” has been organized by IQAC Cell, GIET School of Pharmacy, Rajahmundry Andhra Pradesh on 03-01-2020 for teaching staff, PG and UG students.

**Mr. K Vadivelu**, SIMS college of Pharmacy, Guntur, Andhra Pradesh acted as a chief guest & speaker and Dr M.D Dhanaraju GIET School of Pharmacy was presiding over the inaugural function. The welcome address was delivered by Mr T Deepan.

The inaugural function was followed by the seminar on “Ethics in Research” delivered by Dr K Vadivelu. He focuses on ethics in research, it involves the application of fundamental ethical principles to research activities which include the design and implementation of research, respect towards society and others, the use of resources and research outputs, scientific misconduct and the regulation of research. He said that strive for honesty in all scientific communications. Honestly report data, results, methods and procedures, and publication status. Do not fabricate, falsify, or misrepresent data. Do not deceive colleagues, research sponsors, or the public.

### About the programme;

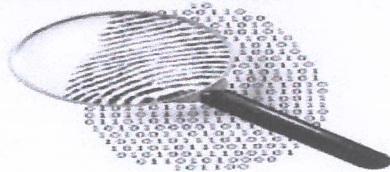

The research method is concerned with carrying out experiment, test, surveys, interviews, etc. As against this, research methodology is concerned with learning various techniques which can be employed in the performance of experiment, test or survey. Research method covers various investigation techniques. Research techniques refer to the behaviour (e.g. note taking) and instruments (e.g. measurement scales) we use in performing research methods. Research methodology is defined as "the science of systematically answering a research question" (PEDLAA, 2015). It refers to the entire research process.

There are four main types of Quantitative research: Descriptive, Correlational, Causal-Comparative/Quasi-Experimental, and Experimental. Research attempts to establish cause-effect relationships among the variables.

### Types of research methodology

When designing a research methodology, a researcher has several decisions to make. One of the most important is which data methodology to use, qualitative, quantitative or a combination of the two. No matter the type of research, the data gathered will be as numbers or descriptions, and researchers can choose to focus on collecting words, numbers or both.

## Research Methodology

**GIET ENGINEERING COLLEGE**

**DATE: 14-03-2020**  
**TIME: 10:30 A.M TO**  
**1:30 P.M**

**ABOUT THE COLLEGE:**

GIET School of Pharmacy was established in 2004 by Founder and Chairman Dr. K.V.V. Satyanarayana Raju, under Sri Koundinya Educational Society who is the pioneer in educational institutions of East Godavari District, Andhra Pradesh. The institute is affiliated to Andhra University, approved by AICTE and recognized by PCI, New Delhi. GIET School of Pharmacy is one of few institutions in Andhra Pradesh approved by the National Assessment and Accreditation Council (NAAC), Bangalore, which illustrates its quality in academe. Considering the global focus on clinical orientation of the pharmacy profession, GIET School of Pharmacy was introduced the Doctor of Pharmacy (Pharm.D) course in 2008 with the approval from PCI.

**Course offered**

**B Pharm:** The students those are interested in the medical field (except to become a doctor) can choose this course after the completion of class 12th. can work in a range of industries related to the prescription, manufacture & provision of medicines. The duration of this course is 4 years.

**Pharm D:** The Pharm D course lasts six years in total, with five years of classroom instruction and one year of practical training. The only doctoral degree that can be pursued immediately after finishing the 10+2 exams. Furthermore, B Pharm graduates can pursue a Pharm D course by applying for a lateral entry program, i.e., Pharm D course (Post Baccalaureate).

**M Pharm:** A Master of Pharmacy degree holder is one pharmacy course that is structured in a way to provide entire technical, researched, practical and theoretical knowledge of pharmacy including traditional and modern medicines. The degree is of great value because a person holding this degree is as knowledgeable as a medical practitioner with years of experience, in fact, way ahead of doctors by acquiring knowledge with experience of complete health care industry.

**ABOUT THE PROGRAMME**

Entrepreneurial skills can encompass a broad range of various skill sets like technical skills, leadership and business management skills and creative thinking. Because entrepreneurial skills can be applied to many different job roles and industries, developing your entrepreneurial skills can mean developing several types of skill sets.

For instance, to be a successful business owner, you may need to develop your business management skills. To build and maintain successful project teams you might need to improve your leadership and communication skills.

One-day seminar on “Skills of Entrepreneurship” at GIET School of Pharmacy

One-day seminar on “Skills of Entrepreneurship” has organized by IQAC Cell, GIET School of Pharmacy, Rajahmundry Andhra Pradesh on 14-03-2020 for teaching staff, PG and UG students.

**Mr R Bala Dinakar**, Associate Professor, GIET College of Engineering, Rajahmundry acted as a chief guest & speaker and Dr M.D Dhanaraju, Principal, GIET School of Pharmacy was presiding over the inaugural function. The welcome address was delivered by Dr V.D Sundar.

The inaugural function was followed by the Seminar on “Intellectual property rights” by Dr Baladinakar. He focuses on Entrepreneurship, it is the creation or extraction of economic value. With this definition, entrepreneurship is viewed as change, generally entailing risk beyond what is normally encountered in starting a business, which may include other values than simply economic ones.

An entrepreneur is an individual who creates and/or invests in one or more businesses, bearing most of the risks and enjoying most of the rewards. The process of setting up a business is known as entrepreneurship. The entrepreneur is commonly seen as an innovator, a source of new ideas, goods, services, and business/or procedures.

#### ABOUT THE PROGRAMME

Viruses constantly change through mutation. When a virus has one or more new mutations it's called a variant of the original virus. Tracking SARS-CoV-2 variants. All viruses, including SARS-CoV-2, the virus that causes COVID-19, change over time.

The World Health Organization (WHO) has decided to name the disease caused by the novel corona virus "COVID-19" and refers to the virus that causes it as the "COVID-19 virus." CO for corona, VI for virus, D for disease, and 19 for the year the outbreak was first recognized, late in 2019. In response to COVID-19, the NIEHS Worker Training Program (WTP) has been conducting webinars and presentations on technical topics related to COVID-19 with a focus on protecting workers who may be at risk of exposure to COVID-19.

One-day webinar on “COVID 19 and its research” at GIET School of Pharmacy

One-day webinar on “COVID 19” has been organized by IQAC Cell GIET School of Pharmacy, Rajahmundry Andhra Pradesh on 23-04-2020 for all the students of GIET School of Pharmacy in online mode.

Dr M.N. Palaksha, Professor & Principal, Aadya college of Pharmacy, Bangalore, acted as a chief guest & speaker and Dr M.D Dhanaraju GIET School of Pharmacy was presiding over the inaugural function. The welcome address was delivered by Dr C Gopi.

The inaugural function was followed by the webinar on “COVID 19” delivered by Dr M.N. Palaksha. He focuses on COVID 19 disease, he started with spreading of Covid virus from one person to another person. People can catch COVID-19 from others who have the virus. The disease can spread from person to person through small droplets from the nose or mouth which are spread when a person with COVID-19 coughs or exhales. He also said that Wear a mask properly. It mean that

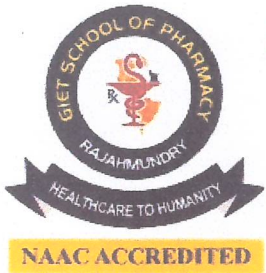

- Make sure your mask covers your nose, mouth and chin.
- Clean your hands before you put your mask on, before and after you take it off, and after you touch it at any time.
- When you take off your mask, store it in a clean plastic bag, and every day either wash it if it's a fabric mask or dispose of it in a trash bin if it's a medical mask.
- Don't use masks with valves.
