## 1. ALTERNATIVE SOURCES OF ENERGY AND ENERGY CONSERVATION MEASURES

### Description:

Our college has initiated the following measures to conserve energy

- ✓ Solar panels are used to capture solar energy.
- ✓ Use of Light Emitting Diode (LED) / Power Efficient Equipment.
- ✓ Sensor-based energy conservation.
- ✓ Wheeling to the Grid Units are being Maintained in different blocks of the College.
- ✓ Expenditure - Representative Bills.

On the roofs of the college and the top of hostels, solar panels have been installed. These solar panels ensure that some college facilities are powered partially by solar energy, which conserves electricity. Our college has made a conscious effort over the past few years to replace outdated lighting with LED bulbs because they are comparatively more energy efficient.

Additionally, the college administration has strictly ordered all teachers, students, office assistants, and other stakeholders to ensure that all lights, fans, and motors are turned off after college hours.

## 2. Management of the various types of degradable and nondegradable waste

### Description:

GIET School of Pharmacy has developed techniques for managing waste produced on campus using the fundamental 3Rs waste management strategy: Reduce the amount of waste produced, reuse everything to the greatest extent possible after proper segregation and cleaning, and recycle as much as you can before giving it to the appropriate agencies. On campus, waste is produced in both liquid and solid forms, both biodegradable and non-biodegradable, as well as chemical waste. The campus does not produce any hazardous waste that is classified. The institute's environmental policy aims to achieve zero waste discharge and waste utilization through carefully thought-out methods that make the campus sanitary and safe.

### 3. Water conservation

#### Description:

The institution has installed a rainwater harvesting system to ensure groundwater supply. All required facilities are provided in the campus to harvest the rainwater to the maximum extent. Borewell facilities, Tanks and bunds are available in the institution for water conservation. Wastewater generated on the campus includes sewage, hostel, and mess effluent waste. The entire treated water is used for watering the gardens. The groundwater is pumped into storage tanks at different campus places. GIET has its **mineral water plant** on the campus. It provides healthy and clean drinking water to staff and students. This water is provided to the classrooms, laboratory, hostel, and mess. In addition to this, the water cooler is also provided to the students.

## 4.Green campus initiatives

### **Description:**

GIET Institutions provides around 38 buses covering East and West Godavari Districts for the students and staff. Maximum all the staff utilizes the college transport. Staff and students are restricted from using their automobiles on the college campus. Parents and visitors are permitted to park their vehicles in the allotted area. Students staying in boys' and girls' hostels can use bicycles to go to the college from the hostel or to the various places in the campus. College also provides battery cars to use within the campus, thereby reducing the pollution arising from fuel-driven vehicles. The parking area for all the vehicles is provided at the college entrance. The college provides pedestrian-friendly pathways for the staff and students. The staff and students are instructed to avoid using plastic on campus premises. Placards are displayed on the entire campus, indicating plastic-free zones. Landscaping of trees and plants in the campus improves the beauty of the college. The institute has a canopy of trees and plants to free up environmental pollution and safeguard people's health.

## TO WHOMSOEVER IT MAY CONCERN

This is to certify that scribes for theory examinations are available for blind and disabled students (Divyangjan). Formerly there were no such students in the college. As per the requirement, scribes have been identified and submitted to Andhra University. The availability of scribes has been displayed on the college noticeboard. In the future, if any differently-abled students get admission to our college, the facility will be utilized.
